

Dominique CLUZEL

Born in 1950, French
Professor in Earth Sciences
The University of New Caledonia
BP R4, 98850 Noumea New Caledonia
Tél : (687) 29 03 13
email : dominique.cluzel@unc.nc

Education

PhD in Structural Geology, University Paris 11 (Orsay), 1977. "*Microtectonics of the Pyrenees foreland, Corbières France*"
SciD in Geology and Geodynamics, University of Orleans, 1990. "*Tectonics and geodynamics of the Okcheon Belt (South Korea)*"

Occupation

1978-1979 : senior lecturer, University of Batna (Algeria)
1979-1981 : assoc. professor University of Lubumbashi (Katanga, Dem. Rep. of the Congo)
1981-1983 : senior lecturer, University of Orléans, in position at the University of Lubumbashi
1983-1991 : senior lecturer, University of Orléans,
1991-1998 : professor, University of New Caledonia
1998-2008 : professor, University of Orléans, head of Geodynamics Team
2008-..... : professor, University of New Caledonia

Research skills

Field geologist. Tectonics, geodynamics, geochemistry, regional geology.

Present research topics

Geology and geodynamics of New Caledonia and the SW Pacific
Formation and evolution of the ultramafic regolith of New Caledonia, inference on Ni resource and environment issues
Paleozoic geodynamic evolution of the Central Asia Orogenic Belt in NW China

Publications

Articles in peer reviewed journals	99
Communications	82
Technical reports, notices of geological maps	12
PhD supervisions	12
